# CenadIM

**Centro Nacional de Documentación e Información de Medicamentos**

## Red Nacional de Centros y Servicios de Información de Medicamentos y Tóxicos

Primera Reunión Virtual – 26 de marzo del 2013

Bienvenidos

# AGENDA

| |
|---|
| I. Actividades 2012 |
| II. Cronograma y temas a tratar en las siguientes reuniones |
| III. Manejo de ATC, DDD, DCI (INN) |
| IV. Otros |

# I. Actividades 2012

**4 Reuniones Virtuales**

- **27 enero:** (19 asistentes) Actividades 2011, avances en implementación CIM

- **20 abril:** (18 asistentes) Manejo de Plataforma MICROMEDEX

- **20 julio:** (12 asistentes) Manejo de Plataforma BEST PRACTICE

- **20 diciembre:** (12 asistentes) Avances implementación CIM, temas 2013

**1 Reunión Presencial** →

**25 y 26 octubre:** (44 asistentes) Lectura Crítica de Evidencia Científica
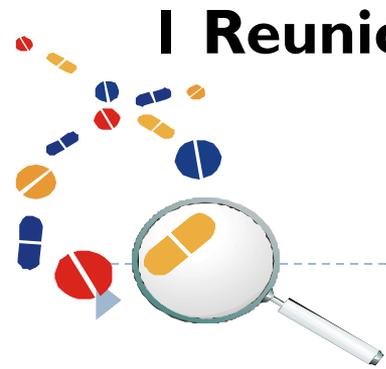

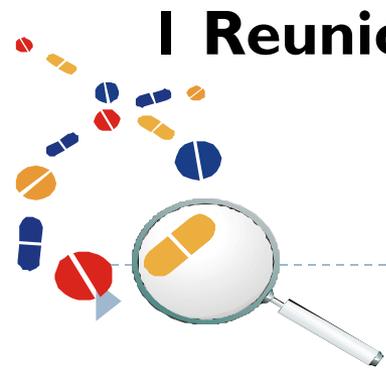

# II. Cronograma 2013 y Temas a tratar

**4 Reuniones Virtuales**

- **26 marzo:** Actividades 2012

- **25 junio:** Evaluación de Artículo científico

- **3 setiembre:** Diseño y Elaboración de Boletines Farmacoterapéuticos

- **10 diciembre:** Galénicos

**1 Reunión Presencial** → **26 y 27 setiembre:** Tema a tratar

# III. Manejo de ATC, DDD, DCI (INN)

**ANEXO 3**

**MODELO DE FORMATO DE RESPUESTA**

**Elaboración de la respuesta:**                                          Fecha: ___/____/____

a. Naturaleza o tema de consulta:

| | | | |
|---|---|---|---|
| 1. Administración | 6. Dosis | 11. Identificación | 16. Tratam. farmac. de elección |
| 2. Bibliografía | 7. Equivalencia | 12. Interacc. Medicam | 17. Otros:_____ |
| 3. Compatibilidad | 8. Estabilidad | 13. Normatividad | |
| 4. Conservación | 9. Farmacocinética | 14. . Reacciones adversas | |
| 5. Disponibilidad | 10. Farmacodinamia | 15. Toxicología | |

b. Terminología del problema de salud y/o medicamentos consultados: _____

_____

c. Clasificación ATC de medicamentos consultados:

_____

# ATC/DDD

**WHO Collaborating Centre for Drug Statistics Methodology**

Norwegian Institute of Public Health

# ATC/DDD Index 2013

A searchable version of the complete ATC index with DDDs is available below. The search options enable you to find ATC codes and DDDs for substance name and/or ATC levels. In your search result you may choose to show or hide the text from the Guidelines for ATC classification and DDD assignment linked to the ATC level. The text in the Guidelines will give information related to the background for the ATC and DDD assignment.

## Search query

| ATC code | or | name |
| --- | --- | --- |
| | | containing query |

Search

## ATC code

- All ATC levels are searchable.
- A search will result in showing the exact substance/level and all ATC levels above (up to 1st ATC level).

## Name

- "Name" is defined as the name of the substance (normally the INN name) or the name of the ATC level. Note that trademarks are not searchable.
- A minimum of three letters must be entered in the name box. Select a query that contain part of or a query that start with the letter entered.
- For ATC combination levels, please note that all active ingredients would normally not be searchable.

# ATC/DDD Index 2013

A searchable version of the complete ATC index with DDDs is available below. The search options enable you to find ATC codes and DDDs for substance name and/or ATC levels. In your search result you may choose to show or hide the text from the Guidelines for ATC classification and DDD assignment linked to the ATC level. The text in the Guidelines will give information related to the background for the ATC and DDD assignment.

## Search query

| ATC code | or | ENALAPRIL | Search |
| --- | --- | --- | --- |
| | | containing query ▾ | |

## Found 5 entries containing 'ENALAPRIL'.

| C09AA02 | enalapril |
| --- | --- |
| C09AA02 | enalapril |
| C09BA02 | enalapril and diuretics |
| C09BB02 | enalapril and lercanidipine |
| C09BB06 | enalapril and nitrendipine |

**C CARDIOVASCULAR SYSTEM**
**C09 AGENTS ACTING ON THE RENIN-ANGIOTENSIN SYSTEM**
**C09A ACE INHIBITORS, PLAIN**
**C09AA ACE inhibitors, plain**

| ATC code | Name | DDD | U | Adm.R | Note |
|----------|------|-----|---|-------|------|
| C09AA02 | enalapril | 10 | mg | O | |
| | | 10 | mg | P | |

**C CARDIOVASCULAR SYSTEM**
**C09 AGENTS ACTING ON THE RENIN-ANGIOTENSIN SYSTEM**

The DDDs are based on the treatment of mild-moderate hypertension.

See comments to C02L concerning the principles for assignment of DDDs for combined preparations.

**C09A ACE INHIBITORS, PLAIN**
All plain ACE inhibitors are classified in this group. No separate ATC codes are assigned for the esters of the ACE inhibitors (e.g. enalaprilat, quinaprilat).

Combinations with diuretics, see C09BA - ACE inhibitors and diuretics.

Combinations with calcium channel blockers, see C09BB - ACE inhibitors and calcium channel blockers.

**C09AA ACE inhibitors, plain**

| ATC code | Name | DDD | U | Adm.R | Note |
|----------|------|-----|---|-------|------|
| C09AA02 | enalapril | 10 | mg | O | |
| | | 10 | mg | P | |

## MedNet INN services

The WHO MedNet offers on-line information services related to INNs which are free of charge to its members.

As a Member of MedNet INN, you will be able to search the INN database for INN names, for names published on recommended or proposed lists, and display the equivalent of the Latin INN name in Arabic, Chinese, English, French, Spanish and Russian. You will also be informed about any existing national names, ATC codes if assigned to INNs and the basic chemical information. The INN Status query allows for tracking the status of INNs within the INN process.

For further information and how access these services, please contact the WHO INN programme
About INNs

International Nonproprietary Names or INNs are selected in close collaboration with national nomenclature commissions (e.g. BAN, DCF, DCIt, JAN , USAN, etc.). The INN Programme assigns International Nonproprietary Names to medicinal substances through a broad consultative process. Instances where a national nonproprietary name for a new pharmaceutical substance is different from the INN are rare exceptions.

As unique names, INNs have to be distinctive in sound and spelling, and should not be liable to confusion with other names in common use (e.g. trade marks). To make INNs universally available they are formally placed by WHO in the public domain, hence their designation as nonproprietary. They can be used without any restriction whatsoever to identify pharmaceutical substances.
